## Entrepreneur Direct Lecture Series Featuring Science Entrepreneurs Rodriguez and Stehno-Bittel

Tuesday, November 8, 10:30am to 11:45am

Memorial Union Ballroom

Science entrepreneurs will be featured in Fort Hays State University's Fall 2016 Entrepreneur Direct Lecture Series. Isaac Rodriguez and Kayla Rodriguez Graff of Sweetbio and Lisa Stehno-Bittel, President of Likarda, LLC will present on November 8, 2016 from 10:30-11:45 a.m. in the Fort Hays Ballroom of the FHSU Memorial Union.

Isaac Rodriguez is CEO and Chief Science Officer and Kayla Rodriguez Graff is COO, of Sweetbio, a bioscience company bringing to market a membrane to be used in dental treatment. After tooth loss or before implantation, membranes are used as a barrier to protect bone growth and encourage gum regeneration. Non-resorbable membranes, typically plastics or metals, do not dissolve and must be eventually removed. Resorbable membranes degrade as the gums heal and do not require removal. The SweetBio membrane is resorbable and is the first to incorporate Medical Grade Manuka honey to rev up healing and fight bacteria.

Lisa Stehno-Bittel is the President and Founder of Likarda, the parent company of two biosciences companies. One is **Likarda Animal Health** which produces kits to manage diabetes by transplanting Kanslets™ (our proprietary engineered islet cell clusters) into diabetic dogs and cats. The other is **LikardaBio** which supports pharmaceutical, nutraceutical and therapeutic development companies by providing consultative research and analytical services from early stage drug discovery through lead compound optimization.

*Entrepreneur Direct* is a speaker series that features successful entrepreneurs in an informal setting that is accessible and free to students, faculty and the public. The program is intended to connect students with successful entrepreneurs who have stories and advice to share. A panel asks questions about entrepreneurship and encourages questions and interaction with the audience.

*For more information, contact Kelsi Broadway, College of Business and Entrepreneurship*
